

KDDI File Storage

Hassle-free file sharing on our large-capacity, secure service

**Available as one international contract
or as separate contracts for each of
your local offices**

※Price varies by country. Please ask your local sales representative.

Share files regardless of device

File-share from PC or smart device. The in-browser GUI supports English, Chinese and Japanese.

Securely share files with your clients

The “One-time Web publication function” makes it possible to share files with users who do not have accounts.

High security to prevent data leaks

In addition to IDs and passwords, our system allows restricting access by IP address and domain name.

What is the “One-time Web publication function”?

This function provides a temporary, accessible URL for exchanging folders or files with non-users of File Storage.
